Brightech®

Luna Drop LED Floor Lamp Assembly Instructions

1.Using screw (A), connect base (B) to bottom pole (C) and tighten all pieces together using large side of screwdriver (I).

2.Using two small screws (J) per connection point, connect pole (D) to pole (C), then pole (E) to pole (D) and head (F) to pole (E). Tighten all pieces together using small side of screwdriver (I).

3.Screw LED bulb (G) into socket, then carefully screw glass shade (H) into place on socket threading.

Operation:
The Luna Drop Floor Lamp is controlled via foot pedal/on/off switch foot pedal located on the power supply cord. The included bulb is not dimmable, but you can use a smart bulb if extra features are desired, and you can also turn the lamp on and off via wall switch for added convenience.

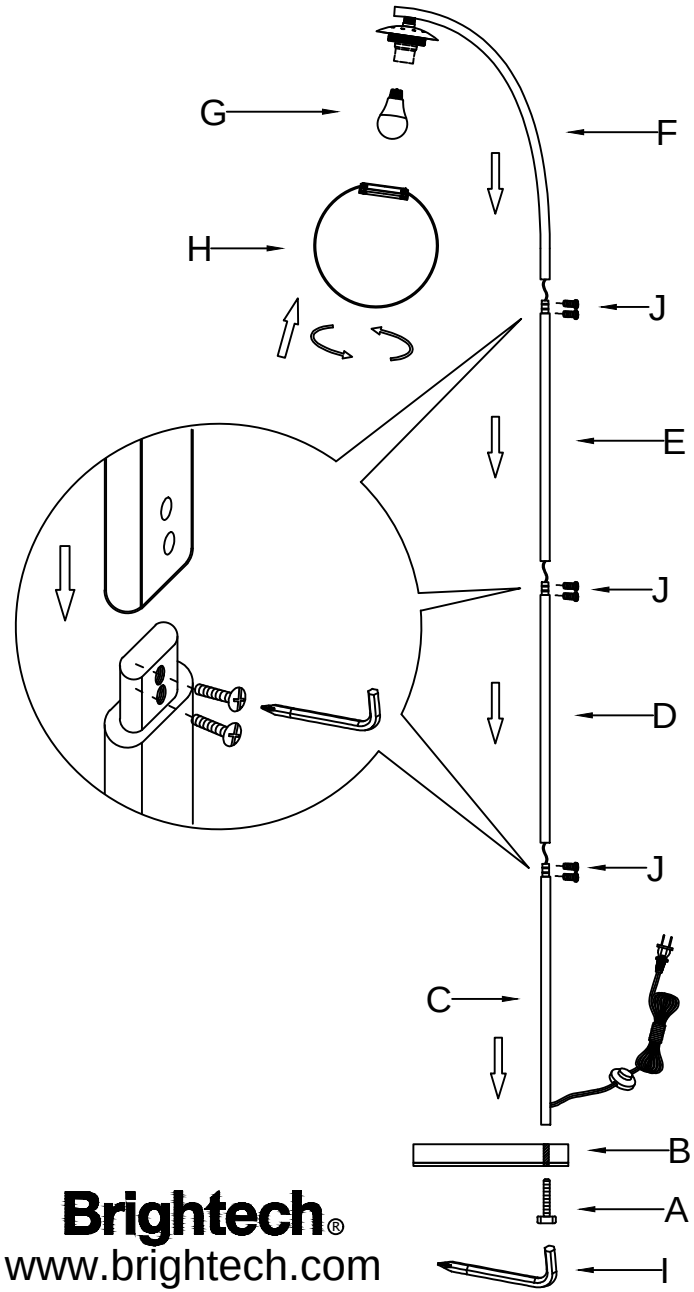

Note - Take care not to screw the globe in too tightly. Due to the porousness of glass, if screwed in too tightly, the globe may become difficult to remove when needed.

BULB TYPE:
Includes 1 pc A19 9W LED bulb.

GENERAL PRODUCT INFORMATION:
This product is suitable for dry locations only.

IMPORTANT SAFETY INSTRUCTIONS:
AS A SAFETY FEATURE TO REDUCE THE RISK OF ELECTRIC SHOCK, THIS LAMP HAS A POLARIZED PLUG. THIS MEANS ONE PRONG IS LARGER THAN THE OTHER. THEREFORE, THE PLUG WILL ONLY FIT IN A POLARIZED OUTLET IN ONE WAY. IF THE PLUG DOES NOT FIT FULLY IN THE OUTLET, TAKE IT OUT AND TURN THE PLUG OVER TO INSERT THE PRONGS IN THE OPPOSITE WAY. IF IT STILL DOES NOT GO IN, CONTACT A QUALIFIED ELECTRICIAN. NEVER USE WITH AN EXTENSION CORD UNLESS THE PLUG CAN BE FULLY INSERTED. DO NOT ALTER THE PLUG.

Customer Service
Thank you for your purchase of your Brightech lamp.
Please contact us via our website if you have any issues or concerns.
