Sophia LED Floor Lamp Assembly Instructions

1. Screw the bottom pole (B) into the base (A) clockwise until tight. Then screw poles (B), (C), and (D) together.

2. Screw the socket (E) attachment into the top pole (D). There may be too much cord in the poles to properly screw them together – if this is the case gently pull any excess cord out through the base.

3. Place the ends of the harp (F) into the small brackets on either side of the socket (E), then slide the fastening tabs down to secure the harp into place.

4. Shade assembly: Open up the shade, then pull up the first wire tab and gently pop it into place along the top ring of the shade. Repeat with the remaining two tabs.

5. Place the lampshade (G) onto the harp (F) and screw on the finial (H) to secure.

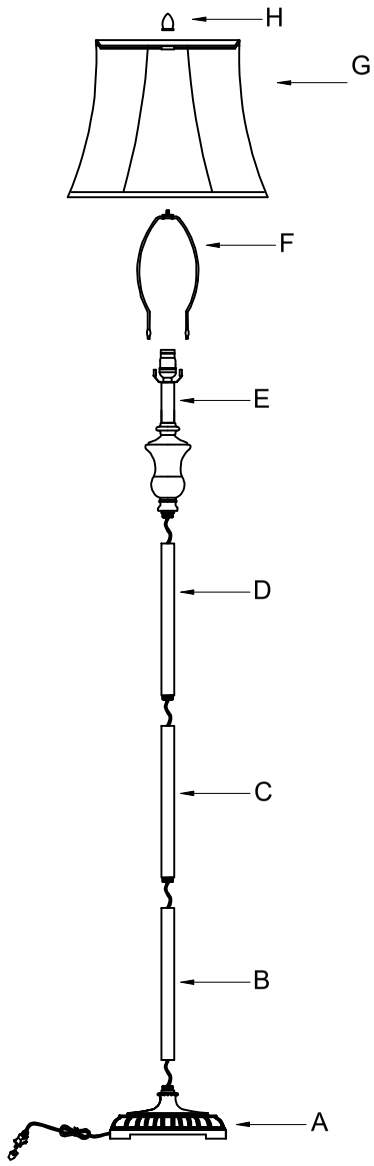

BULB TYPE:
Includes 1 pc 9.5W LED bulb.

GENERAL PRODUCT INFORMATION:
This product is suitable for dry locations only.

IMPORTANT SAFETY INSTRUCTIONS:
AS A SAFETY FEATURE TO REDUCE THE RISK OF ELECTRIC SHOCK, THIS LAMP HAS A POLARIZED PLUG. THIS MEANS ONE PRONG IS LARGER THAN THE OTHER. THEREFORE, THE PLUG WILL ONLY FIT IN A POLARIZED OUTLET IN ONE WAY. IF THE PLUG DOES NOT FIT FULLY IN THE OUTLET, TAKE IT OUT AND TURN THE PLUG OVER TO INSERT THE PRONGS IN THE OPPOSITE WAY. IF IT STILL DOES NOT GO IN, CONTACT A QUALIFIED ELECTRICIAN. NEVER USE WITH AN EXTENSION CORD UNLESS THE PLUG CAN BE FULLY INSERTED. DO NOT ALTER THE PLUG.
