BRIGHTECH

The Sphere

Assembly

1. Attach the pole (B) into the base (A), and pole (C) to the pole (B), making sure that no wires are caught in the threading.

2. Attach the pole (D) to the pole (C), and pull the cord through gently so that the excess cord is tucked inside.

3. Fix the LED bulb (E) into the socket and screw the glass shade (F) tightly as picture shows.

Safety Warnings

Do not use this product outside of its intended and advertised use.

Brightech is not responsible for modifications to this product or any of its electrical components, or for use with externally purchased parts not manufactured to come with this product.

Do not bring this product or any of its components in contact with extreme heat or combustible materials.

This product is intended for 110v voltage only. Use with a higher voltage is likely to cause damage.

This product uses a polarized plug so one prong is larger than the other. When plugging into an outlet, take care to plug the correct direction to avoid electric shock.

Do not bring this product or any of its components in contact with water.

Do not replace the light bulb with one whose wattage is higher than the maximum wattage allowance printed on the socket.

Do not replace light bulb while the unit is connected to electricity.
